What is My Condo Portal?

My Condo Portal is a provider of web sites for residents of any property type, whether you live in a Condo, Townhouse, or Homeowner Association. You can create a sense of community with your friends and neighbors, when you have a community website.

We provide you with a central storage and collaboration space for documents, information, and ideas. The portal also allows you to bring the community closer together by allowing you to coordinate activities, calendars, and schedules. We even empower you to review documents and proposals for bigger projects around the community.

My Condo Portal was designed with you in mind. We want to keep things simple and easy to use. We even take care of the maintenance for you.
